

- Provides 2 independent channels for compressed air transmission.
- Integrates multiple air lines into a single component, significantly simplifying piping layout and saving installation space.
- Minimal rotational resistance ensures smooth and stable operation, effectively saving energy.
- The air configuration, number of passages, and mounting interface can all be customized according to requirements

Subject to technical changes

### SPECIFICATIONS

| Model  | Distributing | Max. speed (r.p.m.) | Max. pressure (kgf/cm <sup>2</sup> ) | Weight (kg) |
|--------|--------------|---------------------|--------------------------------------|-------------|
| RJ-A2E | 2            | 3000                | 8                                    | 1.2         |
